## TITANIUM CHAIN GEL

### A Whole New Concept In Chain Lubrication

#### Description

The hyper strong PTFE boosted formula resists high speed fling-off while providing exceptional anti-wear performance on chains and sprockets. Special additives give maximum corrosion resistance, even in the most severe weather conditions.

#### Application

FUCHS SILKOLENE TITANIUM CHAIN GEL uses state-of-the-art technology to give you a unique super-light gel that protects your chain, leaving it with a bright white, as new, 'ex-works' finish.

#### Advantages / Benefits

- Extreme pressure, semi-synthetic formula resists shock loading.
- Good resistance to high speed fling-off.
- Excellent film forming properties and corrosion protection.
- Thin film resists dirt adhesion.
- Suitable for all chains including 'O' ring types.
- Resistant to water wash-off.
- White appearance makes it easy to see when re-application is needed - if it's white it's alright.
